

Advanced Certified Partners who are renewing their certification by taking the Milestone Online Advanced Re-certification test should be familiar on a hands-on level with the latest versions of the following applications:

- XProtect® Smart Client
- XProtect® Enterprise Management Application
- XProtect Enterprise Server Manager (System Tray)
- XProtect® Corporate Management Client
- XProtect Corporate Management Server Manager (System Tray)
- XProtect Corporate Recording Server Manager (System Tray)
- XProtect® Download Manager

Partners should also be able to perform the following functions and calculations:

- XProtect Enterprise installation (all applications)
- XProtect Corporate installation (all applications)
- Camera bandwidth usage calculation
- Client bandwidth usage calculation
- Recording server storage calculations

In addition, partners are recommended to study the most recent versions of the following material prior to taking the test:

- XProtect Smart Client User's Manual
- XProtect Remote Client User's Manual
- XProtect Enterprise Administrator's Manual
- XProtect Corporate Administrator's Manual
- XProtect® Mobile Administrator's Manual
- XProtect® Analytics User's Manual
- XProtect Analytics Dacolian LPR Administrator's Manual
- XProtect Enterprise Release Note and any Service Release Notes
- XProtect Corporate Release Note and any Service Release Notes
- XProtect Corporate Guide: How to Back Up, Move and Restore the Management Server
- XProtect Corporate Guide: Migrating from XProtect Enterprise to XProtect Corporate
- XProtect Enterprise Specification Sheet (Minimum System Requirements section)
- XProtect Corporate Specification Sheet (Minimum System Requirements section)
- Milestone Whitepaper: Lens Calculations Do The Math
- Milestone Whitepaper: Milestone Storage Architecture (Storage Architecture in XProtect Corporate)
- Milestone Whitepaper: Edge Storage

The most recent versions of these XProtect materials are available from the Download Center (<http://milestonesys.com/downloads>) or the Resource Library (<http://www.milestonesys.com/resources>).
