

XProtect® Central is a product enabling alarm central organizations and system integrators to manage and monitor alarms from a set of independent, supported XProtect installations. XProtect Central provides continuous monitoring of alarm status from XProtect servers, video surveillance cameras and external devices. This powerful solution gives you an instant overview of possible technical problems and alarms so you can immediately verify and resolve incidents fast.

- Instant verification: Hierarchical, multi-level maps make it easy to navigate and identify an incident location and the system entities involved
- Immediate notification: Visual and audible alerts help make busy alarm centers more responsive

XProtect Central integrates with the following XProtect® products: XProtect® Express, XProtect® Professional, XProtect® Enterprise and XProtect® Corporate.
