

The XProtect Screen Recorder is a function that enables Milestone XProtect IP video management software (VMS) to inconspicuously capture screen recordings of any Windows-based PC or point-of-sale terminal. Captured screen recordings are managed in the same way as video (camera) data in the XProtect VMS. This feature helps manage loss and fraud by monitoring the use of business systems and documenting customer transactions. XProtect Screen Recorder improves efficiency by allowing you to audit staff activities and conduct training and education. The XProtect Screen Recorder works seamlessly with all Milestone XProtect VMS products.
