Keep travelers safe

Airports require reliable, efficient systems in order to ensure the safety and security of passengers, patrons and airport staff. Milestone Systems develops security and surveillance solutions capable of handling the most complex and challenging facility operations.

Maintain secure perimeters

Milestone XProtect allows users to integrate video with a multitude of sensor technologies to reduce false alarm rates while centralizing security and surveillance activities.

Integrate multiple systems and site operations

Regional facilities can now be centrally managed from a single designated command control center. Airport activities such as baggage handling, traveler screening, parking monitoring and staff and pedestrian access to any location can be controlled at tiered levels according to need.

Gain useful intelligence

Airport retailers can establish both cost-saving and income-generating initiatives by using business intelligence.

Meeting today's challenges

Customize the solution

XProtect Advanced VMS Products for airports

Regardless of size or complexity, XProtect® Corporate or XProtect® Expert provide high security and advanced video surveillance capabilities to international and regional airports worldwide. The Milestone XProtect series has products uniquely designed for large, complex, central management giving administrators the power to control multiple cameras and security devices across several geographical locations.

XProtect Smart Wall

XProtect Smart Wall is a sophisticated video wall for control rooms and alarm centers designed to provide operators with

a situational overview and the ability to effectively coordinate response activities. XProtect Smart Wall supports any number or combination of cameras and monitors and runs on standard servers and displays.

Milestone partner solutions

Expand system capability with license plate recognition, luggage bar code scanning, case management integration, building automation, parking lot management and much more. Third-party partnerships help unite hardware, software and systems management equipment - all in one location.

Customer story

Security systems unified at two Bulgarian airports

The installation of XProtect software made it possible for Varna and Burgas airports to successfully unify security and surveillance operations. Administrators were also able to gain greater control of technological processes including runway, apron, fuel-farms and baggage flow. Area	Concern	Solution
Access control	Visual confirmation and control of entry points and events	Integrating access control eliminates the need for multiple monitoring systems
Baggage handling	Baggage claims control, tracking and identification	Video enables point-to-point luggage verification and tracking via bar code reading
Airport security	Anti-theft, violence deterrence and detection	Situational awareness through video walls, Alarm Manager, Camera Navigator and multi-layered maps
Parking security	Monitoring of entry and exit/ security of vehicles and structures	Integration with parking management systems provides visual confirmation of events and increases traveler safety and security
Perimeter protection	Establish all-around secure premises	Centralized monitoring gives security staff and administrators the necessary tools to cover more area with greater efficiency
Retail intelligence	Loss prevention, retail optimization, marketing and analytics	Video integration with cash registers allows for greater managerial oversight, enhances loss prevention and optimizes store operations
Operations management	Manage and coordinate ground services	Strategically placed cameras increase staff safety and ground operation efficiencies while helping to manage customer and baggage transport vehicle flow
Building automation	Manage elevators, fire alarms and other safety alert systems	Automation provides instant visual verification of alarms and incidents

Milestone Systems is the global leader in open platform IP video management software. Milestone software is sold through authorized and certified partners worldwide.
