

IPS AnalyticsManager

Integration of IPS VideoAnalytics to 3rd party systems

IPS AnalyticsManager is a unique open video analytics platform, that integrates IPS server-based Video Analytics into the most popular video management systems (VMS). It combines a powerful range of certified video analytics functions with simple integration and ease of use.

Key features

- Centralized management of server-based video analytics
- Different video analytics modules available
- Runs several analytics per camera simultaneously
- State-of-the-art web tools for configuration and operation
- Integrated performance monitoring and diagnostic tools

- ONVIF compatible
- Zero-integration-interface for 3rd party VMS
- Provides additional meta-data for integration of high speed forensic search and image overlays in VMS
- Auto configuration possible by import and export of configuration files
- Compatible with most popular VMS

Applications

- Integration into 3rd party VMS
- Integration in cloud applications
- Simple stand-alone systems

Benefits

- Easy integration with Zero-integration-interface
- Unified tools for configuration and operation of IPS server-based Video Analytics imply lower training costs

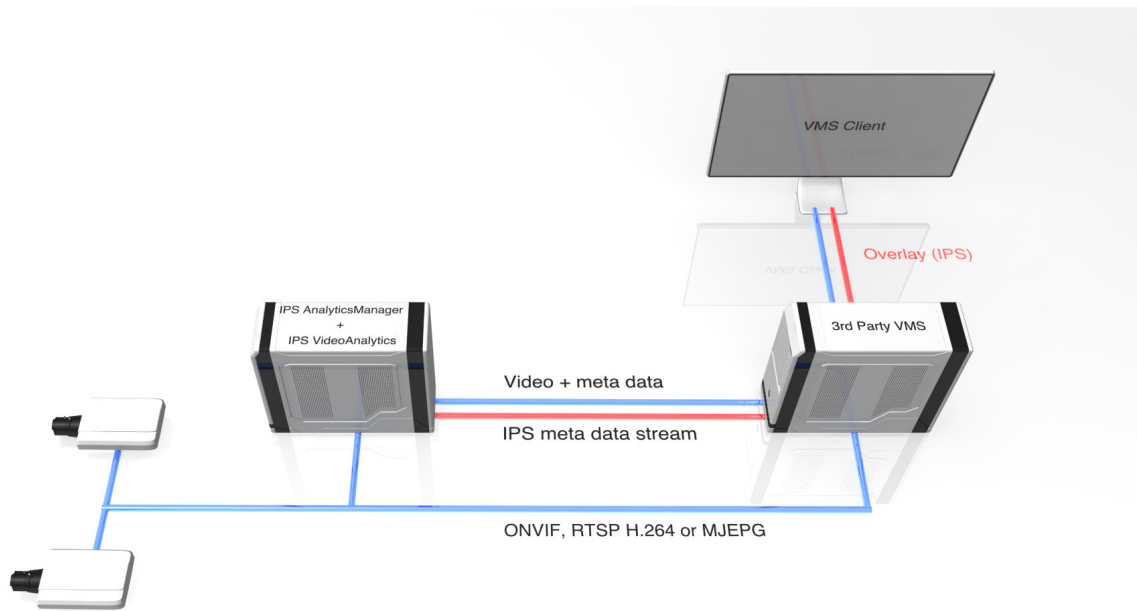

- Easy configuration
- Low integration costs

IPS VideoAnalytics available

- IPS IntrusionDetection
- IPS Indoor Detection
- IPS Motion Detection
- IPS Sabotage Detection
- IPS Loitering Detection
- IPS Privacy Protection
- IPS Tamper Detection
- IPS Public Transport Protection

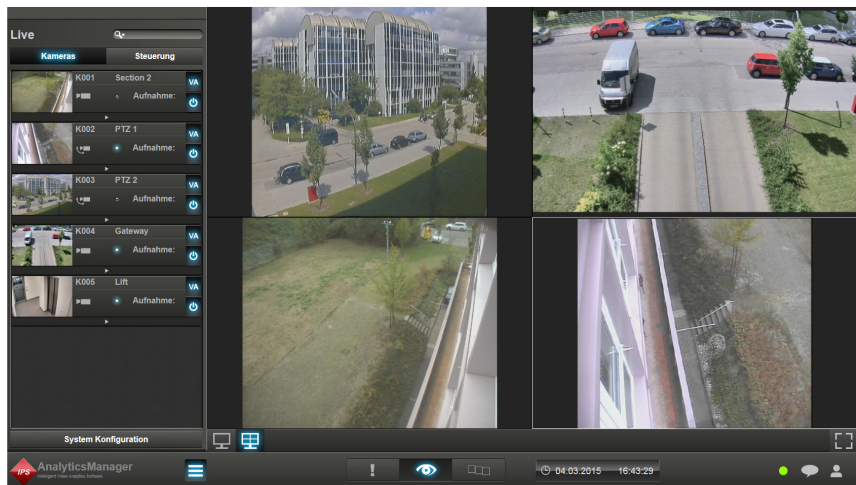

Intelligent Video Analytics

IPS Intelligent Video Analytics

IPS Intelligent Video Analytics, founded in 1965, is a German manufacturer of sophisticated video products. Since the acquisition by Securiton GmbH in 2006, IPS has been managed as an independent business unit. In recent years, IPS has been developing its latest generation of IP-based software solutions for video analytics and management. IPS products are successfully installed in numerous applications. Selected solution partners, providers and distributors successfully sell the current IPS products across Europe.
