!!!!!!!STEPS REQUIRED!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!					1
!!!!!!!!!Please Read!!!!!!!!!!!					
In order for our background service to run, it needs to b	e able to talk to the Mileston	e Reconding Server			
The install wizard is going to open the config file once	you close this window. it will	wait for you to make your ch	anges and then the install wi	zard will continue	
If you require assistance please contact us support@lineardynamics.com 1-888-309-5216					
Below is an example of the lines to be added					
The config file in question: c:\Program Files\VideoOS\MIPPlugins\StorageQuest RookArch	ive\RookService.exe.config				
What the config file requires:					
-the server name and port for the milestone recon -the 'basic user' name and password created withi -the hostname for the Rimage system	aing server n Mileston Management Client				
<pre>///////the new lines should look something like this//</pre>	/////// 7.85:10224" /> />

The installer is now finished and the RookService icon should be seen in a running state in the system tray.

### Licensing

After the installation process has completed, launch your Milestone XProtect Management Client.

Navigate to MIP Plug-ins>StorageQuest>Rook Archive and click Licensing.
