

Evidian SafeKit installation guide with a **free trial** is available in the following article:

<https://www.evidian.com/products/high-availability-software-for-application-clustering/milestone-xprotect-corporate-high-availability-synchronous-replication-failover/>

The image is a screenshot of a website banner for Evidian. At the top, the Evidian logo is on the left, and a navigation menu with links for SafeKit, Architectures, HA Modules, Cloud, FAQ, Resources, and Contact is on the right. Below the navigation, a breadcrumb trail reads: Evidian > Products > High Availability Software - Zero Extra Hardware > Milestone XProtect: The Simplest High Availability Cluster with Real-Time Synchronous Replication and Failover between Two Redundant Servers. The main banner features a background image of two security cameras. Overlaid on the left is the text 'Milestone XProtect: the simplest high availability cluster between two redundant servers' and 'Evidian SafeKit' below it. On the right, the Milestone logo is shown with the word 'VERIFIED' underneath it. At the bottom of the banner, there are three blue buttons: 'Contact us >', 'Ask for a demonstration >', and 'Get a quote >'. Below the buttons, a dark grey bar contains the text: 'How the Evidian SafeKit software simply implements a Milestone XProtect high availability cluster with real-time replication and failover between two redundant servers without shared disk'.
