Summary of Verification

Caringo Inc. provided a remote desktop session to Milestone where the Caringo Swarm with XProtect® 2018 R3 was verified to work.

All products are verified by Milestone Engineers. Caringo Inc. provided Milestone with the following for the verification process:

- FileFly administration guide
- Caringo-Milestone,"how it works", documentation
- Architecture diagram showing the test setup
- Swarm documentation

Conclusion

Caringo FileFly for Swarm is an object-based software storage platform that allows for endless scaling without compromising latency or redundancy. FileFly allows for quick customizable migration from archive storage to Swarm leaving behind pointers that makes for easy and fast re-hydration upon request.

About the Milestone Verification Program

The Milestone Verification Program is intended to verify the general functionality and compatibility of the partner's solution/product with the Milestone XProtect® video management software (VMS).

The technical setup, configuration, testing and operations are done by the partner and verified by Milestone.

Benefits:

- Milestone endorsement of the solution/product ensures you are choosing a solution that has been checked and verified to be working with Milestone XProtect
- Verification of your solution/product being interoperable and/or optimised for XProtect video management software (VMS)
- Differentiation from non-verified solutions/products, providing a competitive advantage
