BALTO™
By Seneca

BALTO T1 / R1

Balto by Seneca is a comprehensive security appliance developed in collaboration with Milestone Systems, our fellow security industry leaders. Endorsed and validated by Milestone, in partnership with Dell, Balto by Seneca is a purpose-built solution designed to support the demands of the security system integrator.

This revolutionary new hardware line integrates Milestone's XProtect software as well as Seneca's innovative xConnect remote management and Maestro optimization platforms. Effortless to launch, easy to manage, backed by Seneca's superior customer service and Dell's guarantee, Balto sets the new standard for physical security.

The Balto T1/R1 has advanced performance capabilities utilizing Intel Quick Sync technology. This technology provides more efficient video processing to improve throughput for video recording applications. The appliance combines simplicity and performance at an excellent cost to provide a robust, ready-to-use solution in a mid-tower or 1U rack server.

KEY FEATURES

- Comes standard with xConnect and Maestro technology
- Three-year global next-day, on-site service warranty
- Up to 28 TB of raw storage retention
- Provides 250 Mbs recording rate performance
- Ideal for restaurants, retail, convenient stores and small businesses
THE SENECA DIFFERENCE

xCONNECT
Remote Management Platform

Seneca's exclusive xConnect platform puts you in complete control of your security hardware with an easy-to-use dashboard that allows you to audit, manage and act remotely. Instant alerts report problems before customers do, making you more proactive. Off-site control means less truck rolls and more profitability.

maestro
Optimization realized

Maestro gets your optimized system up and running in minutes instead of hours. We channeled years of value engineering into an intuitive dashboard that eliminates hundreds of keystrokes. You don't even need an internet connection or data transfer from external drives.
