Release Letter

Product:	**_Bosch Forensic Search Agent for Milestone XProtect_**
Version:	**_1.0.70_**

This letter contains latest information about the above mentioned software.

1. General

The Bosch Forensic Search Agent enables Operators in Milestone's XProtect Smart Client to run Bosch forensic searches. The functionality is integrated into Milestone's Centralized search and allows to search for events even if they were not initially configured.

2. Features

The following features are available in "Live" and "Playback" mode:

- Search for retrospectively configured analytics events in Milestone-recorded metadata

3. Restrictions, known issues

- Motion+ and Flow algorithms are currently not supported.

- Scaling of the search configuration works best with a Windows Display Scaling setting of 100%.

4. System Requirements

Minimum System Requirements	Description
Operating System	Windows 10
Milestone VMS	XProtect 2019R3 Expert or Corporate with Device Pack 10.5 or above
Workstation	As defined by Milestone.
