

# Milestone XProtect® Parcel Tracking

Milestone XProtect Parcel Tracking is a powerful solution which provides video evidence of the parcels as soon as they are processed in distribution centers.

It makes it possible to keep track of the status of a parcel through its journey until it is ready to be delivered.

## This is how Parcel Tracking works

## Utilizing XProtect Parcel Tracking

Operators can easily track the whereabouts of a specific parcel in case it is missing. Avi export of all cameras with one click.

Operators can efficiently investigate parcels in case of a dispute regarding a damage etc.

Logistics Providers can reduce the amount of efforts needed to fight against the complaints.

# What do you need in order to utilize Parcel Tracking?
