Swiss Re chooses Nedap's Physical Access Control System AEOS as their new global standard

Buildings equipped with latest Secure Access card technology

Groenlo, ... December 2017

Swiss Re – the leading global reinsurer - will equip 48 of its locations with Nedap's latest Physical Access Control System AEOS. Through a state-of-the-art badge system, using Mifare DESfire card technology, employees with specific safety and security clearance will be able to access dedicated Swiss Re buildings. The implementation of AEOS is part of the Global PACS project to replace obsolete access control systems in Swiss Re buildings around the world.

The AEOS system is designed to ensure the best possible physical access control. Installation of AEOS-technology at the 48 Swiss Re locations will be done by local partners and supported through the Nedap Global Client Programme.

Security & functionality combined

Zürich-based Swiss Reinsurance Company Ltd, generally known as Swiss Re, is the world's second-largest reinsurer. Fokko van der Zee, managing director Nedap Security Management: "Swiss Re is a unique, landmark organization, where security of information systems and premises are an essential part of their operations. With AEOS, we deliver a state-of-the-art Physical Access Control System using the latest generation of high-end technology." Nedap's AEOS-platform will replace 48 existing systems in several countries around the world.

Swiss Re's Head Group Security Director Christoph Teuber: "Nedap has developed a hypermodern and scalable platform that combines security and functionality. Nedap's specialists have shown great engagement and dedication. We are impressed by the systematic global roll-out approach by the Nedap team. AEOS is now our global standard for access control".

About Nedap
Since the company's founding in 1929, Nederlandsche Apparatenfabriek 'Nedap' N.V. has been manufacturing smart technical applications for the challenges of today and tomorrow, and selling them all over the world. Headquartered in Groenlo in the Netherlands, Nedap boasts a workforce of approx. 780 employees and operates on a global scale, while the company has been listed on Euronext Amsterdam since 1947.

The world of security is constantly changing. Organizations must deal with changing technologies, increasing regulations and tighter budgets. With AEOS, the first software-based platform for security management, Nedap provides the answer to these challenges, so organizations can use their budgets efficiently and effectively and the security system can grow with these changes.

About Swiss Re

The **Swiss Reinsurance Company Ltd**, generally known as **Swiss Re**, is a reinsurance company based in Zürich, Switzerland. It is the world's second-largest reinsurer. Founded in 1863, Swiss Re operates through offices in more than 25 countries.
The Swiss Re Group is a leading wholesale provider of reinsurance, insurance and other insurance-based forms of risk transfer. Dealing directly and working through brokers, its global client base consists of insurance companies, mid-to-large-sized corporations and public sector clients.
From standard products to tailor-made coverage across all lines of business, Swiss Re deploys its capital strength, expertise and innovation power to enable the risk-taking upon which growth and progress depends.
