

Milestone Verified Solution

Title:	Verification Advancis WinGuard
Partner:	Advancis Software & Services GmbH
Product:	Advancis WinGuard X4
Milestone:	XProtect 2018 R3
Date:	31/10/2018
Period:	31/10/2021

Summary of Verification

Advancis Software & Services GmbH provided a remote desktop session to Milestone where the WinGuard with XProtect® 2018 R3 was verified to work.

All products are verified by Milestone Engineers. Advancis provided Milestone with the following for the verification process:

- Description of included components and software including version details
- Documentation describing the setup
- Additional Documents, user and administrator manuals

Conclusion

The Advancis Software & Services GmbH PSIM+ software WinGuard provides a central platform for the efficient control of the entire corporate security. WinGuard utilizes XProtect® libraries, provided by the MIP SDK for visualization and control of all the cameras and recording servers connected to XProtect®. All events are synchronized with the video stream.

About the Milestone Verification Program

The Milestone Verification Program is intended to verify the general functionality and compatibility of the partner's solution/product with the Milestone XProtect® video management software (VMS).

The technical setup, configuration, testing and operations are done by the partner and verified by Milestone.

Benefits:

- Milestone endorsement of the solution/product ensures you are choosing a solution that has been checked and verified to be working with Milestone XProtect
- Verification of your solution/product being interoperable and/or optimised for XProtect video management software (VMS)
- Differentiation from non-verified solutions/products, providing a competitive advantage
