Summary of Verification

Technology Associates provided a remote desktop session to Milestone engineers who were provided with a product demonstration with XProtect® 2018

Additionally, the following formed part of the verification process:

- Architecture diagram showing the test setup
- Documentation describing the setup

Conclusion

Technology Associates IP View Smart Park works seamlessly with Milestone XProtect 2018 with Smart Client functionality. The rule-based control system notifies operators upon parking violations and a push notification is sent to parking attendants.

About the Milestone Verification Program

The Milestone Verification Program is intended to verify the general functionality and compatibility of the partner's solution/product with the Milestone XProtect® video management software (VMS).

The technical setup, configuration, testing and operations are done by the partner and verified by Milestone.

Benefits:

- Milestone endorsement of the solution/product ensures you are choosing a solution that has been checked and verified to be working with Milestone XProtect

- Verification of your solution/product being interoperable and/or optimised for XProtect video management software(VMS)

- Differentiation from non-verified solutions/products, providing a competitive advantage
