VERIFIED
SOLUTION

Summary of Verification

Technology Associates provided a remote desktop session to Milestone engineers who were provided with a product demonstration with XProtect® 2018 R3

Additionally, the following formed part of the verification process:

- Architecture diagram showing the test setup
- Documentation describing the setup

Conclusion

Technology Associates Red Light meter works seamlessly with Milestone XProtect 2018 where it is fully integrated into the Smart Client with autonomous Red Light violation detection.

About the Milestone Verification Program

The Milestone Verification Program is intended to verify the general functionality and compatibility of the partner's solution/product with the Milestone XProtect® video management software (VMS).

The technical setup, configuration, testing and operations are done by the partner and verified by Milestone.

Benefits:

- Milestone endorsement of the solution/product ensures you are choosing a solution that has been checked and verified to be working with Milestone XProtect

- Verification of your solution/product being interoperable and/or optimised for XProtect video management software(VMS)

- Differentiation from non-verified solutions/products, providing a competitive advantage
