SUB SKU(s): All sub-SKUs in the VxRail V670F family are verified with the above specifications. Sub SKU(s) with better performance, e.g., larger storage (more disks, larger disks), more identical CPUs, or more internal memory (RAM), will be covered by the verification of the above specified SKU

About Milestone Hardware Verification

Milestone Hardware Verification is intended to verify the compatibility of the partner's hardware with a current version of the Milestone XProtect® video management software (VMS).

Milestone provides guidance, tools, and outlined methods for the verification. The verification setup, configuration, testing, and operations are conducted by the partner, and the test results is verified by Milestone based on submitted logs and documentation.

Milestone does not warrant our partners' products nor functionalities. Milestone does not verify product compatibility for installations not comparable with the testing environment.
