Milestone Verified

Confirmation of Compatibility

Partner: NetApp

Partner Product SKU: E5760 Storage System
Partner Product: E5760 Storage System

Milestone XProtect® Product: XProtect Corporate 2019 R3

Date of Verification: 2020-02-04

Supported no. of cameras: 400

Archiving Yes/No: Yes

Installation type: Storage tested as archive

VERIFIED

Summary of Verification

The product is verified by Milestone Engineers, NetApp provided Milestone with the following for the verification process:

- Product specification sheet.
- Technical description of the test environment used for the verification tests, including a drawing.
- Screen shots or report showing the system configuration.
- Screen shots showing the storage configuration, e.g. generated from the Disk Management tool.
- Single log file in binary format (.blg), generated by the Performance Monitor tool covering the full test period, 12 hours with 1 second sampling interval.
- Information about the no. of cameras tested and the configuration of the recording server

Conclusion

Milestone confirms to have reviewed the verification documentation and on the date of such review, and to the best of our knowledge, the Product is compatible with the Milestone XProtect version applied in the testing environment. For information on the testing environment and the verification documentation please contact our Partner.

CPU: Intel Silver / Gold 16 cores (qty 2) Total 32 cores (64 HT CPUs)

System Model and Manufacturer: SuperMicro 6029P-E1CR24H

Memory: 128 GB

OS: Windows Server 2016

RAID Level used for Live data: DDP, 12 disks

Live Raid Controller Type: NetApp E2812 Storage System connected via iSCSI

Live Storage: 2 * 8 TB

RAID Level used for Archive data: RAID 60, 24 disks

Archive Raid Controller Type: NetApp E5760 Storage System connected via iSCSI

Archive Storage: 2 * 45 TB

GPU: Not used

SUB SKU's: All sub SKU's in the NetApp E5760 Storage System family is verified with above specifications.
Increasing the same type storage, CPUs or memory, will not change the verified result,
but will still be verified as a sub SKU.

About Milestone Verification

Milestone Verification is intended to verify the compatibility of the partner's specific product performance
and functionality, based on the documentation submitted, with a current Milestone XProtect®
Video Management Software (VMS).

Milestone provides guidance, tools and outlined methods for the verification. The verification setup, configuration, testing and operations are conducted by the partner, and the test results is verified by Milestone.

Milestone does not warrant our partners' products nor functionalities. Milestone does not verify product
compatibility for installations not comparable with the testing environment.
