

Milestone Verified Solution

Title: Nexcom Telematics system

Partner: Nexcom

Product: Nexcom ATC8010

Milestone: XProtect® 2018 R3

Date: 30-01-2019

Summary of Verification

Nexcom provided a remote desktop session to Milestone where the ATC8010 with XProtect® 2018 R3 was verified to work within the Milestone performance limits.

All products are verified by Milestone Engineers. Nexcom provided Milestone with the following for the verification process:

- Documentation generated during test
- Documentation describing the setup and performance data obtained
- Architecture diagram showing the test setup
- Whitepaper describing specifications of the system

About the Milestone Verification Program

The Milestone Verification Program is intended to verify the general functionality and compatibility of the partner's solution/product with the Milestone XProtect® video management software (VMS).

The technical setup, configuration, testing and operations are done by the partner and verified by Milestone.

Benefits:

- Milestone endorsement of the solution/product ensures you are choosing a solution that has been checked and verified to be working with Milestone XProtect
- Verification of your solution/product being interoperable and/or optimised for XProtect video management software (VMS)
- Differentiation from non-verified solutions/products, providing a competitive advantage
