

## Milestone Verified

### Confirmation of Compatibility

**Partner:** Huawei

**Partner Product SKU:** OceanStor 9000 V5 (used as archive storage)

**Partner Product Name:** OceanStor 9000 V5

**Milestone XProtect® Product:** XProtect Corporate 2020 R2

**Date of Verification:** 2020-12-14

**Supported no. of cameras:** 1500

**Archiving Yes/No:** Yes

**Installation type:** Separate ( Management and Recording on separate servers)

### Summary of Verification

The product is verified by Milestone Engineers, Huawei provided Milestone with the following for the verification process:

- Unique identification of the system tested, e.g. Stock Keeping Unit, SKU no.
- Product specification sheet.
- Technical description of the test environment used for the verification tests, including a drawing.
- Report showing the system configuration, generated by use of the DxDiag.exe tool.
- System Configuration Report generated from the Management Client.
- Screen shots showing the storage configuration, e.g. generated from the Disk Management tool.
- Log files from each recording server in binary format (.blg), generated by the Performance Monitor tool covering the full test period, 7 days with 1 second sampling interval.
- Information about the no. of cameras tested

### Conclusion

Milestone confirms to have reviewed the verification documentation and on the date of such review, and to the best of our knowledge, the Product is compatible with the Milestone XProtect version applied in the testing environment. For information on the testing environment and the verification documentation please contact our Partner.

**CPU:** Intel(R) Xeon(R) Gold 6154 CPU @ 3.00GHz (6 CPUs), ~3.0GHz

**System Model and Manufacturer:** VMware7,1, VMware, Inc.

**RAM Memory:** 16 GB RAM on each of 18 recording servers

**OS:** Windows Server 2016 Datacenter 64-bit (10.0, Build 14393)  
(14393.rs1\_release.160715-1616)

**Live Storage Controller Type:** VMware on FusionCube

**Live Storage:** 350 GB Share for each recording server

**Archive Storage Controller Type:** OceanStor 9000 V5

**Archive Storage:** 34,2 TB Share for each recording server

**GPU:** Not used

**SUB SKU(s):** All sub SKU's in the OceanStor 9000 V5 family are verified with above specifications.

Sub SKU(s) with better performance, e.g. larger storage (more disks, larger disks), more identical CPUs or more internal memory (RAM), will be covered by the verification of the above specified SKU

### About Milestone Verification

Milestone Verification is intended to verify the compatibility of the partner's specific product performance and functionality, based on the documentation submitted, with a current Milestone XProtect® Video Management Software (VMS).

Milestone provides guidance, tools and outlined methods for the verification. The verification setup, configuration, testing and operations are conducted by the partner, and the test results is verified by Milestone.

Milestone does not warrant our partners' products nor functionalities. Milestone does not verify product compatibility for installations not comparable with the testing environment.
