### About Milestone Verification

Milestone Verification is intended to verify the compatibility of the partner's specific product performance and functionality, based on the documentation submitted, with a current Milestone XProtect® Video Management Software (VMS).

Milestone provides guidance, tools and outlined methods for the verification. The verification setup, configuration, testing and operations are conducted by the partner, and the test results is verified by Milestone.

Milestone does not warrant our partners' products nor functionalities. Milestone does not verify product compatibility for installations not comparable with the testing environment.
