

Milestone Verified – System Builder

Confirmation of Compatibility

Partner: Promise Technology Inc.

Partner Product SKU: Vess A6600-SBP

Partner Product Name: Vess A6600-SBP

Milestone XProtect® Product: XProtect Corporate 2019 R1

Date of Verification: 2019-04-15

Supported no. of cameras: 135

Summary of Verification

The product is verified by Milestone Engineers Promise Technology Inc. provided Milestone with the following for the verification process:

- Unique identification of the system tested, e.g. Stock Keeping Unit, SKU no.
- Product specification sheet.
- Technical description of the test environment used for the verification tests, including a drawing.
- Screen shots or report showing the system configuration, e.g. generated by use of the DxDiag.exe tool.
- Screen shots showing the storage configuration, e.g. generated from the Disk Management tool.
- Single log file in binary format (.blg), generated by the Performance Monitor tool covering the full test period, 7 days with 1 second sampling interval.
- Information about the no. of cameras tested

Conclusion

Milestone confirms to have reviewed the verification documentation and on the date of such review, and to the best of our knowledge, the Product is compatible with the Milestone XProtect version applied in the testing environment. For information on the testing environment and the verification documentation please contact our Partner.

CPU: Intel® Xeon® Processor E3-1275 v5

System Model and Manufacturer: Promise A6600-SBP

Memory: 16 GB

RAID Level used for LIVE data (if applicable): RAID 5, 15+1 Disks

RAID Level used for ARCHIVE data (if applicable):

Raid Controller Type (if applicable): Promise RAID

GPU (if applicable): Intel(R) HD Graphics P630

Storage: 56 TB

Windows Edition: Windows 10 Enterprise (10.0, Build 17134)

Number of Recording Server instances running during the test: 1

Installation type (AIO / RS Only): AIO

SUB SKU's: All sub SKU's in the Vess A6600-SBP family is verified with above specifications. Increasing the same type storage, CPUs or memory, will not change the verified result, but will still be verified as a sub SKU.

About the Milestone System Builder Verification

Milestone System Builder verification is intended to verify the compatibility of the partner's specific product performance, based on the documentation submitted, with a current Milestone XProtect® video management software (VMS).

Milestone provides guidance, tools and outlined methods for the verification. The verification setup, configuration, testing and operations are conducted by the partner, and the test results is verified by Milestone.

Milestone does not warrant our partners' products nor functionalities. Milestone does not verify product compatibility for installations not comparable with the testing environment.
