

## Milestone Verified – System Builder

### Confirmation of Compatibility

Partner: Quantum

Partner Product SKU: GRUGD-ASCA-001A

Partner Product Name: VS2124

Milestone XProtect® Product: XProtect Corporate 2018 R3

Date of Verification: 2019-06-11

Supported no. of cameras: 400

### Summary of Verification

The product is verified by Milestone Engineers, Quantum provided Milestone with the following for the verification process:

- Unique identification of the system tested, e.g. Stock Keeping Unit, SKU no.
- Product specification sheet.
- Technical description of the test environment used for the verification tests, including a drawing.
- Screen shots or report showing the system configuration, e.g. generated by use of the DxDiag.exe tool.
- Screen shots showing the storage configuration, e.g. generated from the Disk Management tool.
- Single log file in binary format (.blg), generated by the Performance Monitor tool covering the full test period, 7 days with 1 second sampling interval.
- Information about the no. of cameras tested

### Conclusion

Milestone confirms to have reviewed the verification documentation and on the date of such review, and to the best of our knowledge, the Product is compatible with the Milestone XProtect version applied in the testing environment. For information on the testing environment and the verification documentation please contact our Partner.

CPU: Intel Silver / Gold 16 cores (qty 2) Total 32 cores (64 HT CPUs)

System Model and Manufacturer:

Memory: 128 GB

RAID Level used for LIVE data (if applicable): RAID 60

RAID Level used for ARCHIVE data (if applicable):

Raid Controller Type (if applicable):

GPU (if applicable): Not used

Storage: RAID60 24 disks

Windows Edition: Windows Server 2016

SUB SKU's: All sub SKU's in the VS2000 family is verified with above specifications. Increasing the same type storage, CPUs or memory, will not change the verified result, but will still be verified as a sub SKU.

### About the Milestone System Builder Verification

Milestone System Builder verification is intended to verify the compatibility of the partner's specific product performance, based on the documentation submitted, with a current Milestone XProtect® video management software (VMS).

Milestone provides guidance, tools and outlined methods for the verification. The verification setup, configuration, testing and operations are conducted by the partner, and the test results is verified by Milestone.

Milestone does not warrant our partners' products nor functionalities. Milestone does not verify product compatibility for installations not comparable with the testing environment.
