VERIFIED
SOLUTION

Summary of Verification

Foxstream provided a video walkthrough of the solution to Milestone where the FoxVigi 3.66 with XProtect® 2018 R3 was verified to work. The FoxVigi video shows analysis of the XProtect video stream, generating alarms and OSD, and sending it to XProtect server, in live and playback.

Additionally, Foxstream provided Milestone with the following for the verification process:

- Administrator Manual detailing the installation and integration with Milestone XProtect
- Architecture description
- Server recommendation and test data based on load tests
- General application requirements for both XProtect and FoxVigi

About the Milestone Verification Program

The Milestone Verification Program is intended to verify the general functionality and compatibility of the partner's solution/product with the Milestone XProtect® video management software (VMS).

The technical setup, configuration, testing and operations are done by the partner and verified by Milestone.

Benefits:

- Milestone endorsement of the solution/product ensures you are choosing a solution that has been checked and verified to be working with Milestone XProtect
- Verification of your solution/product being interoperable and/or optimised for XProtect video management software(VMS)
- Differentiation from non-verified solutions/products, providing a competitive advantage
