Summary of Verification

2N Telekomunikace provided a remote desktop session to Milestone where the 2N® Access Commander with XProtect® 2018 R3 was verified to work.

All products are verified by Milestone Engineers. Additionally 2N Telekomunikace provided Milestone with the following for the verification process:

- Integration manual detailing the installation, upgrade and configuration with XProtect
- Screenshots of the integration within the Smart Client

About the Milestone Verification Program

The Milestone Verification Program is intended to verify the general functionality and compatibility of the partner's solution/product with the Milestone XProtect® video management software (VMS).

The technical setup, configuration, testing and operations are done by the partner and verified by Milestone.

Benefits:

- Milestone endorsement of the solution/product ensures you are choosing a solution that has been checked and verified to be working with Milestone XProtect
- Verification of your solution/product being interoperable and/or optimised for XProtect video management software(VMS)
- Differentiation from non-verified solutions/products, providing a competitive advantage
