

Hilding Installation document

Milestone Marketplace

Installation

As there's quite a big step to start using Hilding, with a lot of parameters to take in consideration, Hilding is not available for installation here.

Please contact sales@tennotech.se for further information, or to request a demonstration.

Demonstration

First of all, please contact sales@tennotech.se go get some more information about Hilding. Then if you want a demonstration, we will book a first meeting.

The step two a demonstration usually starts with a meeting, were we show a presentation of Hilding, and discuss your business and technical needs and requirements.

As a step three, we can show a demonstration of the software, and as a fourth step give access to a test system.
