

ADD ACTIVE MONITORING TO YOUR SECURITY INVESTMENT WITH INTELLISEE

Transform your passive surveillance cameras into proactive risk-mitigation tools.

Are you getting the most from your security cameras? Most organizations invest in security cameras but then only use them to review incident footage *after* something has occurred.

What if your existing cameras could *proactively* alert you to risks and threats in real-time? Make the most of your security camera investment with IntelliSee.

SMARTER SURVEILLANCE FOR A SAFER WORLD

IntelliSee's deep-learning AI scans your live camera feeds for threats 24/7/365. Once a risk is detected, real-time alerts give you the situational awareness needed to quickly prevent or mitigate threats...all without expensive upgrades or added personnel.

-  Detect spills, falls, trespassers, vehicles, weapons & more
-  New capabilities added at no additional cost
-  No privacy issues or questionable AI practices
