Haven't received an email? Check your spam folder. [Send again](#)

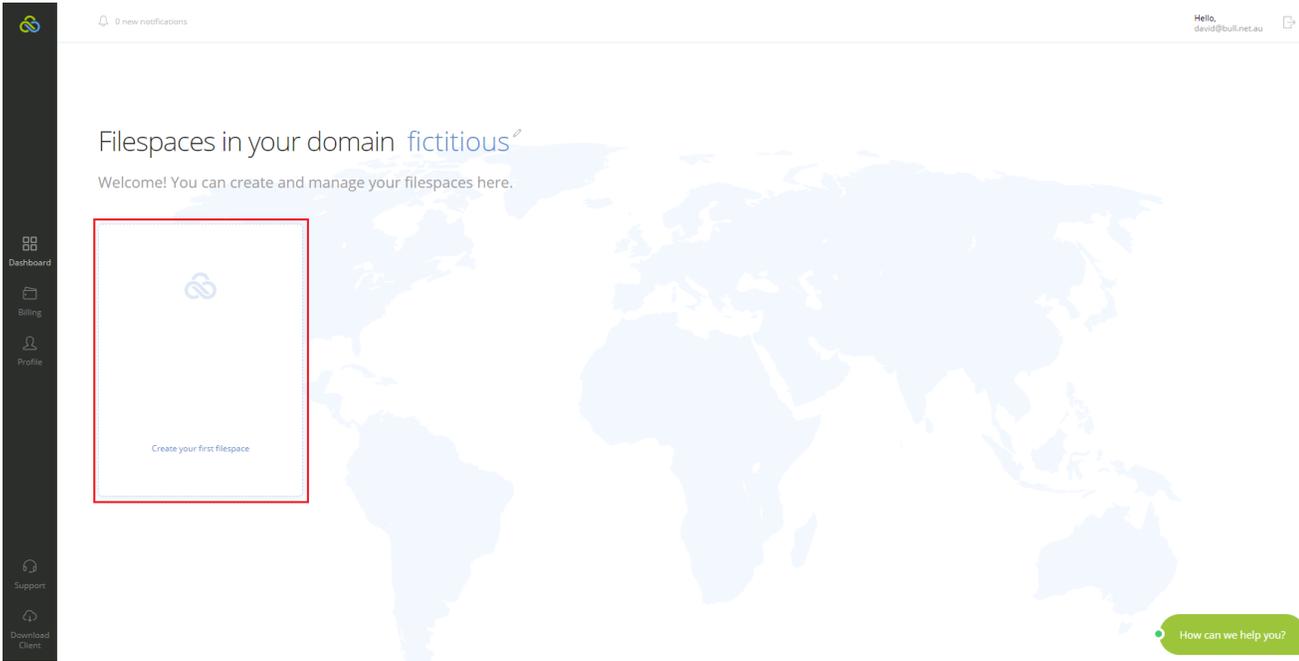

3. Sign-in

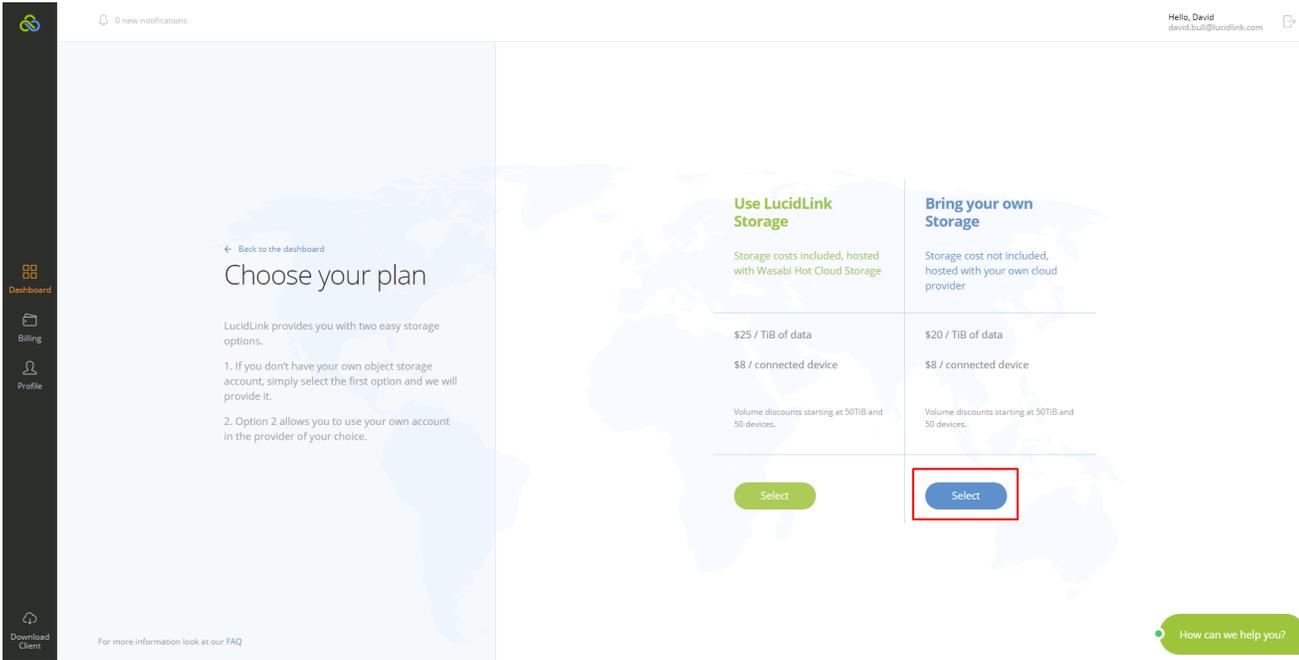

4. Create your Domain. Your Domain will be the suffix amended to all your Filespaces.

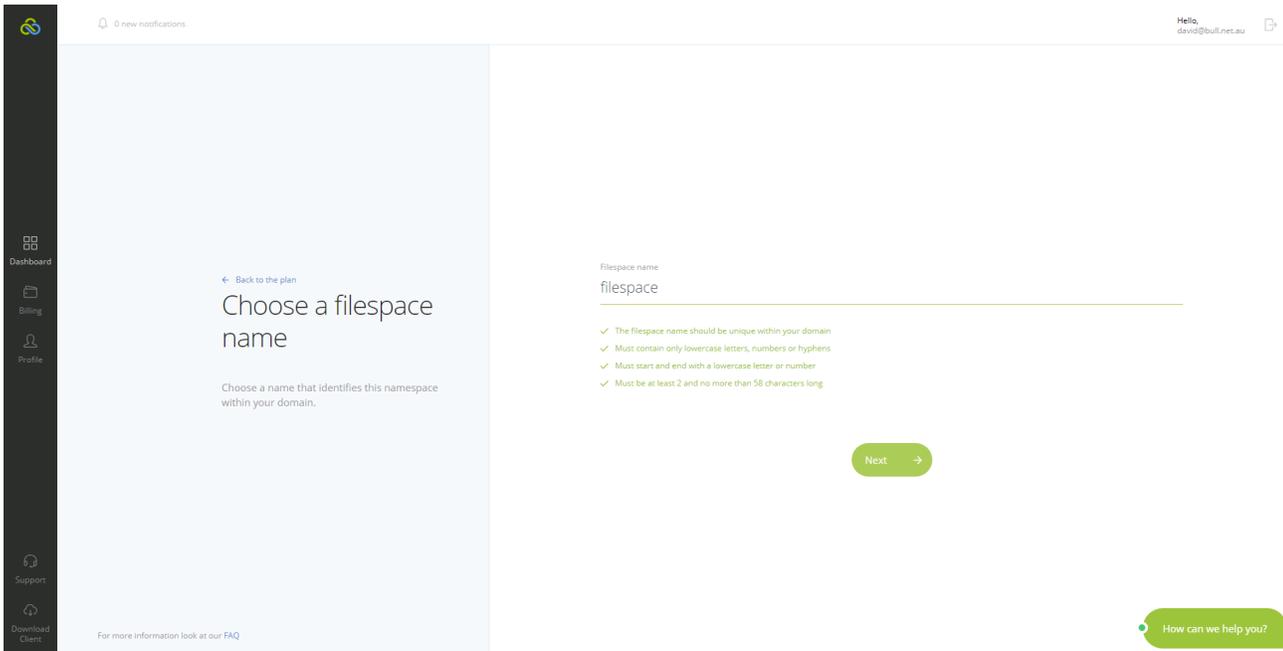

5. Welcome to LucidLink! you are now ready to Create your 1st Filespace

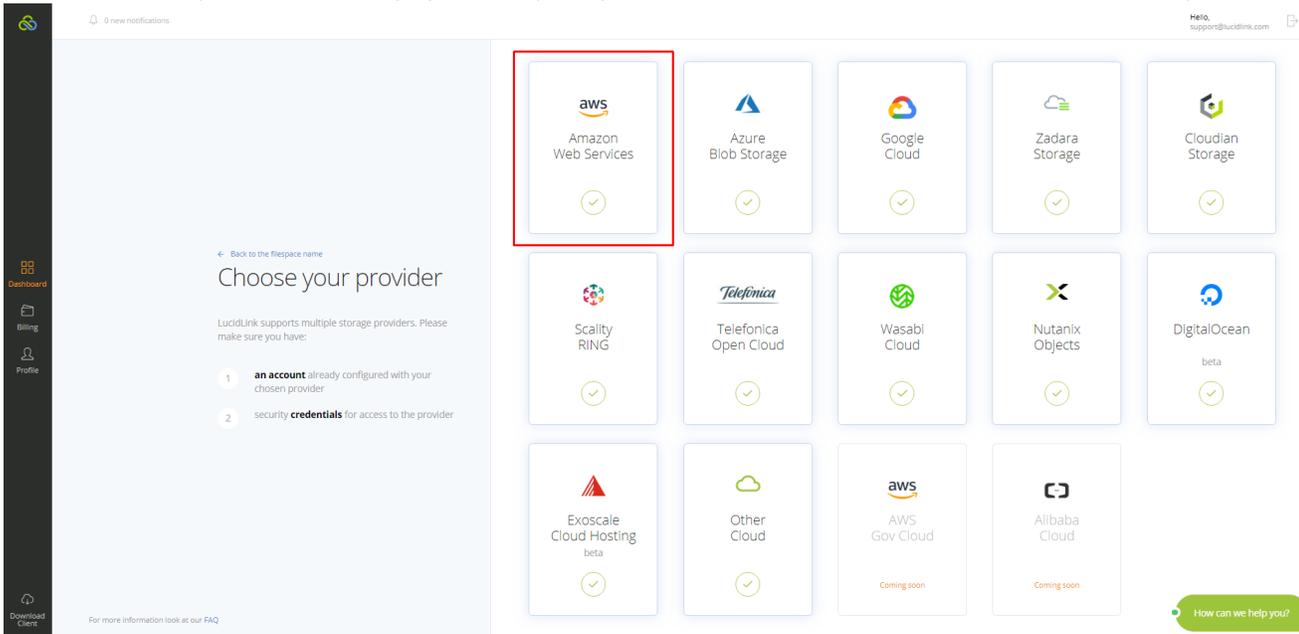

6. You can create your Filespace in either "LucidLink Storage" or "Bring your own Storage".

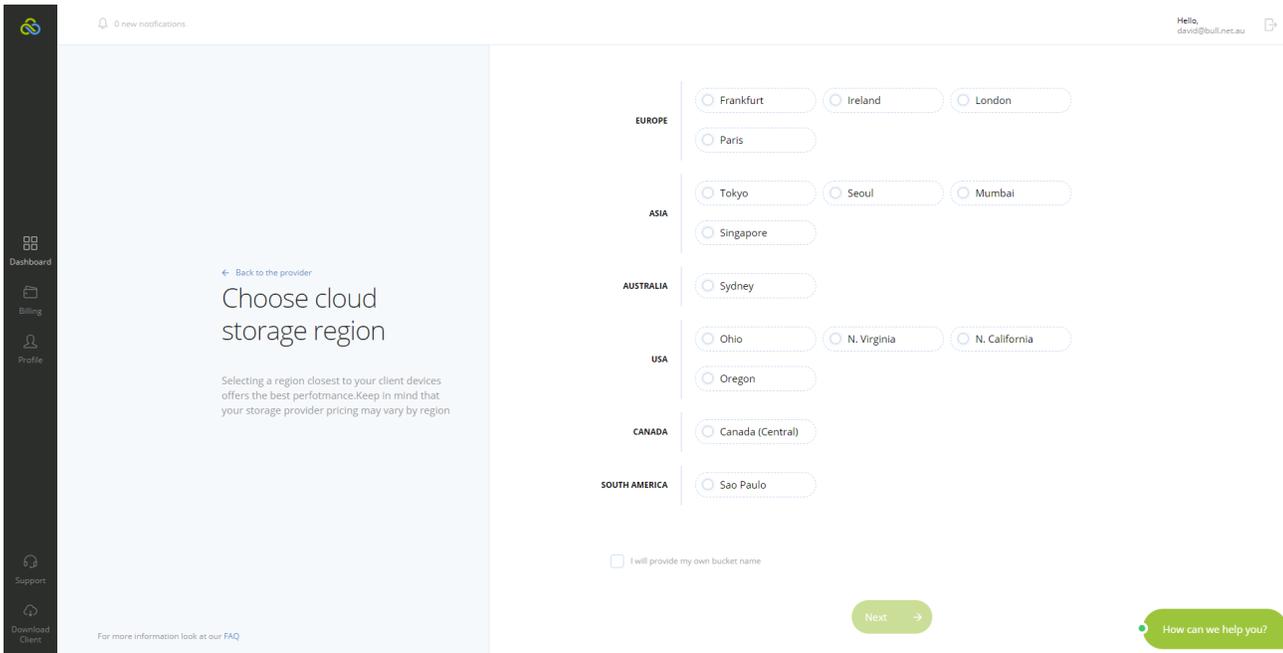

7. Choose a Filespace name and select Next.

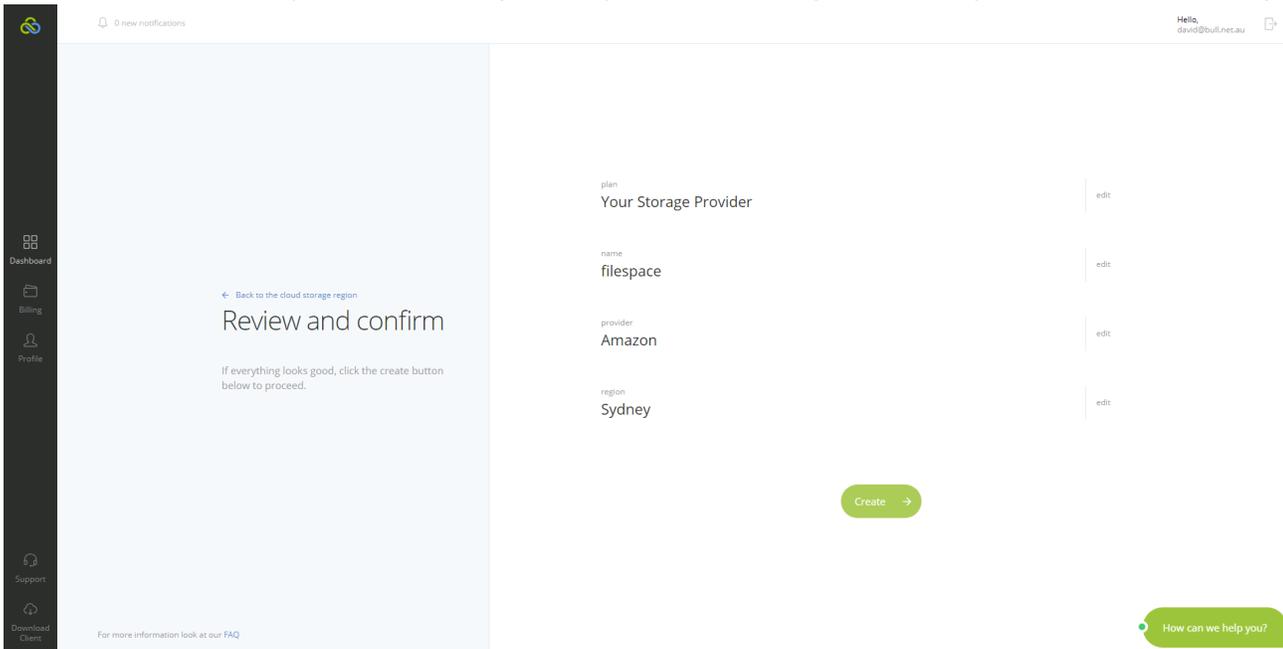

8. Please select your cloud storage provider (as a guide we will continue with Amazon Web Services).

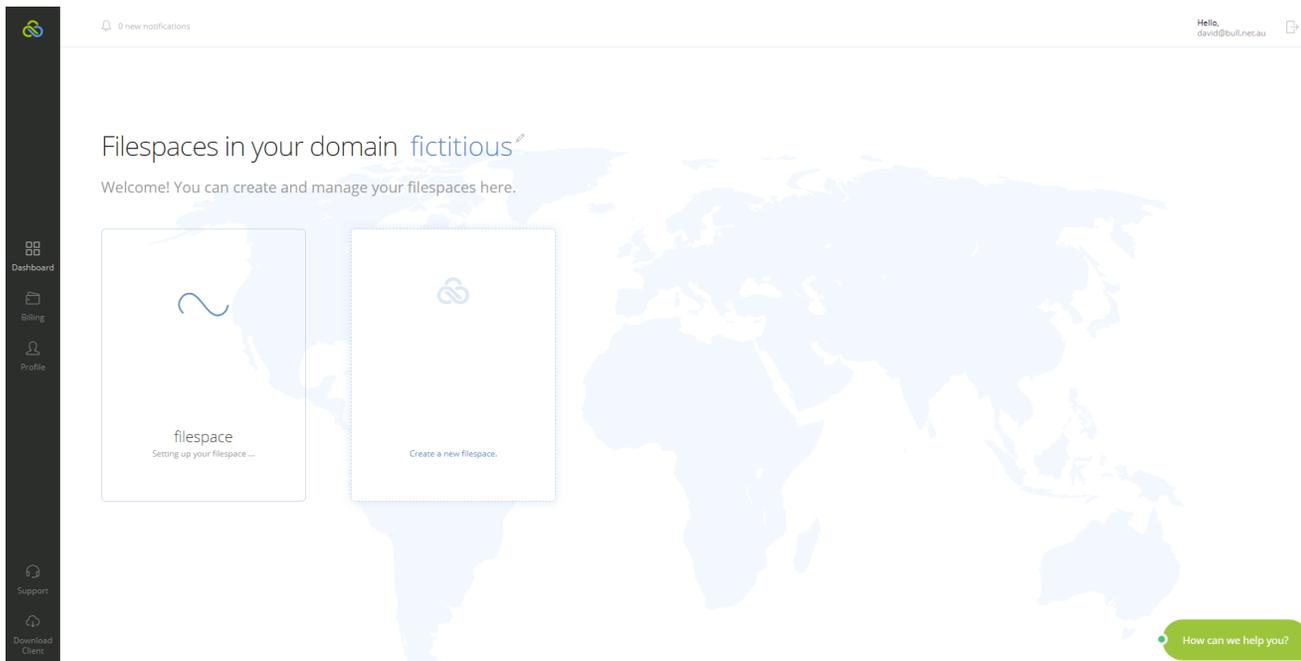

9. Choose a storage region and select Next.

10. Review and confirm your selections; update any individual setting as necessary and select "Create" to proceed.

11. While we are busy creating your Filespace, please download your operating system clients from the "Download client" button in the lower left hand corner or visit <https://lucidlink.com/download> (<https://lucidlink.com/download>).

12. Congratulations! You have successfully created your Filespace. Now would be a perfect opportunity to **Complete your profile and establish your payment method** (<http://support.lucidlink.com/support/solutions/articles/31000148343-complete-your-profile>).

Your next step is to **Initialize your Filespace** (<https://lucidlink.freshdesk.com/support/solutions/articles/31000053447-initialize-your-file-space>).
