AreBrowser - Installation Guide

A simple Chromium-based browser plugin for Milestone XProtect

Prerequisites

Installation

License Activation

Prerequisites

AreBrowser adds a Chromium-based browser to your Milestone XProtect Plugins.

AreBrowser requirements:

- A Microsoft Windows x64 Operating System (AreBrowser does not support x86 machines)
- Milestone XProtect Management Client 2019 R3 or newer
- Milestone XProtect Smart Client 2019 R3 or newer
- Microsoft .NET 4.6 or newer

Installation

Start the installer named AreBrowser_Installer.msi (you can download it for free at www.aretes.net/arebrowser)

Click "Next" button to continue

	< Back	Next >	Cano	el

Select "I Agree" to confirm that you have read and accepted the license terms. Then click "Next" button to continue

e installer will install AreBrowser to the following folder.		
install in this folder, click "Next". To install to a different folder	, enter it below	or click "Br
Folder		
C:\Program Files\Milestone\MIPPlugins\AreBrowser\		Biowse
	-	<u>D</u> isk Co
netall AraBrowserfor yourself, or for anyone who uses this co	nou ter:	
nstall AreBrowser for yourself, or for anyone who uses this cor	nputer:	
nstall AreBrowser for yourself, or for anyone who uses this cor $\textcircled{O} \underline{E}$ veryone	nputer:	

Select the folder where you want to install the AreBrowser plug-in. By default it's "*C:\Program Files\Milestone\MIPPlugins\AreBrowser*". As specified in the Milestone documentation, to work correctly a plugin must be installed in your "**MIPPlugins**" directory.

Click "Next" button to continue

Click "Close" button to close the AreBrowser installation. Now AreBrowser is installed, you can use it as specified in the User's Manual.

To remove AreBrowser you can uninstall it in the Windows' Control Panel

License Activation

AreBrowser uses the XProtect Site-License model and, by default, AreBrowser starts in Trial version. Refer to the User's Manual to understand the differences between Trial or Licensed Version.

If the site already has an AreBrowser active license, it will run in Licensed Mode.

To activate/purchase the Licensed Version, contact us at info@aretes.net. We will ask you for the XProtect **SLC** (Software License Code) of your site installation in order to bind AreBrowser license to your XProtect license.

SLC example: M01-xxx-xxx-xx-xxxxx, this is **not** your XProtect license. The SLC can be found under the License Information in the XProtect Management Client

Basics	Installed Products		
Elicense Information	Product Version	Software License Code	Expiration Date
Site Information	XProtect Essential+ 2019 R3	M01-002-100-01-009655	Unlimited
Servers	AreBrowser v1.0.0.0	N/A	

For more information on site license, please refer to Milestone documentation.
