SOLUTION

Summary of Verification

Auror provided a remote desktop session to Milestone where the Auror Prevent with XProtect® 2018 VERSIONS was verified to work.

All products are verified by Milestone Engineers. Auror provided Milestone with the following for the verification process:

- Documentation describing the setup
- Screenshots
- Additional Documents such as a site client setup guide and a site client user guide.

Conclusion

The Auror Prevent works seamlessly together with Milestone XProtect® and Milestone XProtect® LPR, empowering retailers with crucial data for crime prevention and forensics.

About the Milestone Verification Program

The Milestone Verification Program is intended to verify the general functionality and compatibility of the partner's solution/product with the Milestone XProtect® video management software (VMS).

The technical setup, configuration, testing and operations are done by the partner and verified by Milestone.

Benefits:

- Milestone endorsement of the solution/product ensures you are choosing a solution that has been checked and verified to be working with Milestone XProtect
- Verification of your solution/product being interoperable and/or optimised for XProtect video management software (VMS)
- Differentiation from non-verified solutions/products, providing a competitive advantage
